METALLURGIA — INDEX TO VOLUME 56

JANUARY — DECEMBER 1989

A

Advanced techniques boost forming and metal processing industries ... 288
Aerospace applications fuel the development of titanium alloys ... 491
Aerospace, metals in ... 462
Aluminium broadens its scope ... 488
Aluminium's high-flying future ... 461

B

Birmingham, made in ... 222
BFIA technical conference ... 439
Blandburgh Nemo's vacuum brazing developments ... 202
British Gas GEM awards ... 118
Buyers guide to contract heat-treatment capability ... 354

C

Calculation of the Grossman hardenability factor from quenchant cooling curves ... FUS7
Castings & Forgings 89' Exhibition Preview ... 342
Ceramic radiant tubes applications 350
Continuous casting of high purity small diameter copper rod ... 271
Contract heat-treatment ... 360
Contract heat-treatment capability, Buyers guide to ... 354
Control of quality of forged components ... FS9
Cooling system boosts Jaguar's starter ring production ... 322
Copper alloy, redevelopment programme completed for extruded products ... 282
Cryotough Treatment, improved tool life by the ... 178

D

Development of improved shotblast properties in cold mill work rolls ... 300
Doncasters Monk Bridge, advanced forging developments at ... 440

E

Electrical thermal processing techniques show great savings ... 346
Electricity — the route to foundry quality and profitability ... 209
Electroheat — in action ... 60
Electroheat developments for thermal processing applications ... 106
Electrolytic and electroless coatings 25

F

Flexible furnace concept for gas carburisation ... 320
Floform Ltd — designed for precision FS6
Fluidised beds ... FUS16
Ford Motor Company — the general quality situation and the forging sector ... 18
Forge company capability charts ... FS26
Forged components, Control of quality ... S9
Forging, automatic warm ... 452
Forging developments at Doncasters Monk Bridge, advanced ... 440
Forging equipment, alphabetical guide to ... FS14
Forging industry, North American ... 194
Forging machines, quick tool change system for ... 22
Forming rings to size ... 98
Fuel saving systems boosts furnaces efficiency ... 306
Furnace burner conversion, fast turn around for ... 315
Furnace engineering — latest metal forming installations ... 448
Furnace equipment technology progress in ... 243
Furnace for the Nineties ... 198
Furnace loads, thermal head ratio control of surface treatments for hot and cold forging tools: ... 404
Furnace show, Hong Kong — exhibition highlights ... 234
Furnaces and ovens, industrial ... 101
Furnaces — around the industry ... FUS18
Furnaces Asia '89 Preview ... 234
Furnaces Asia '89 Review ... 396
Furnaces equipment buyers guide ... FUS28

H

Heat-treatment furnaces, reduction of cycle times in ... FUS3
Heat-treatment of directionally-solidified turbine components, specialised ... 356
Heat-treatment with fluidised bed furnaces ... 303
Heating elements and radiant tubes, new horizons for ... 319
High performance materials ... 69

I

Inco's investment programme ... FS2
Industrial furnaces and ovens ... 101
Infra-red brings new light to manufacturing ... 54
Injection moulded magnets show further potential in engineering design ... 285
Inspex '89 — show preview ... 130
International Forging Congress '90 Delhi, India ... 438
Investment casting — a multi-process technology ... 275
Investment casting research pays off 30

J

Jaguar's starter ring production ... 322
'Just-In-Time', straight talk on ... 180

L

Light Alloys ... 494

M

Magnesium — the lightweight alternative ... 492
Maintenance matters ... 219
Materials, handling & control ... 180
Mechanical testing, developments in 368
Metals in aerospace ... 462
Multi-chamber rotary carburising systems ... FUS14

N

Nickel forming capability, Inco's ... FS2

O

Overlaying process ... 27

P

Priest Furnaces develop high-velocity burners ... 314
Process control and instrumentation ... 408

Q

Quality control philosophy — the Nissan way ... 126
Quality testing — equipment and techniques in action ... 370
Quality testing, new directions in ... 364
Quality testing ... 128
Queen's Awards for Export and Technology ... 326
Quenching technology ... 122

R

Reclaim that metal! ... 474
Recycling and reclamation, developments in ... 474
Reduction of cycle times in atmosphere heat-treatment furnaces via closed cycle cooling ... FUS3
Refractory developments ... 76
Robot systems ... 289
Rolls Royce precision castings ... 36
Rotary forging — a technical review ... 9

S

Servo-controlled automatic systems, new generation of ... 444
Shortwave IR reduces heating costs ... 58
Strategic metals, the vital role of ... 66
Superplastic forming developments highlighted in aerospace applications ... 287

T

Technology in manufacturing — Rolls-Royce precision casting ... 36
Thermal head ratio control of furnace loads ... 404
Thermal process projects solve combustion problems ... 313
Thermprocess '89 Preview ... 148
Thermprocess '89 Review ... 262
Titanium alloys, Aerospace applications ... 491
Titanium nitride processing ... 358
Titanium tungsten carbide coatings in development ... 249
Tools and dies in action ... 29
Torvac's vacuum heat-treatment centre ... 200
Total quality and the metal industries 124

U

UEI Congress review ... 53

V

Vacuum brazing developments at Blandburgh Nemo ... 202
Vacuum furnace firmly controls magnet production ... 406
Vacuum furnaces technology, complete capability in ... 196

W

Weight!, taking the ... 426
Welding and brazing techniques and equipment, what's new in ... 214
West Germany — National metals industry in profile ... 420

FS — Forging Supplement with June Metallurgia

C — Furnaces Asia '89 catalogue with July Metallurgia

FUS — Furnaces Supplement with December Metallurgia

AUTHOR INDEX
